AUTHORIZED DISTRIBUTOR

G30 PORTABLE COLOR DOPPLER DIAGNOSTIC ULTRASOUND SYSTEM

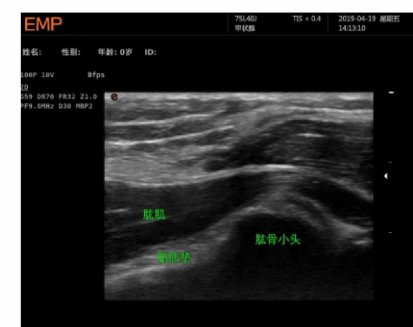

G30 portable color doppler ultrasound is combined with our 26-year-clinical experience with all patented technologies. With new generation notebook-style design, it gives diagnostic support with professionalism anytime and anywhere.

- User Friendly, Laptop Type, Lightweight Less than 5.6kg
- Anaesthesia, Basic Cardiology Application
- Imaging Mode: B, M, C, D, CW, PW, PDI
- Needle Enhancement Guidance Technology
- Advanced Imaging Technology
- Long Battery Life ≥ 120 mins
- Preset & Customization Applications & Enrich Calculation Package

Imaging Technology

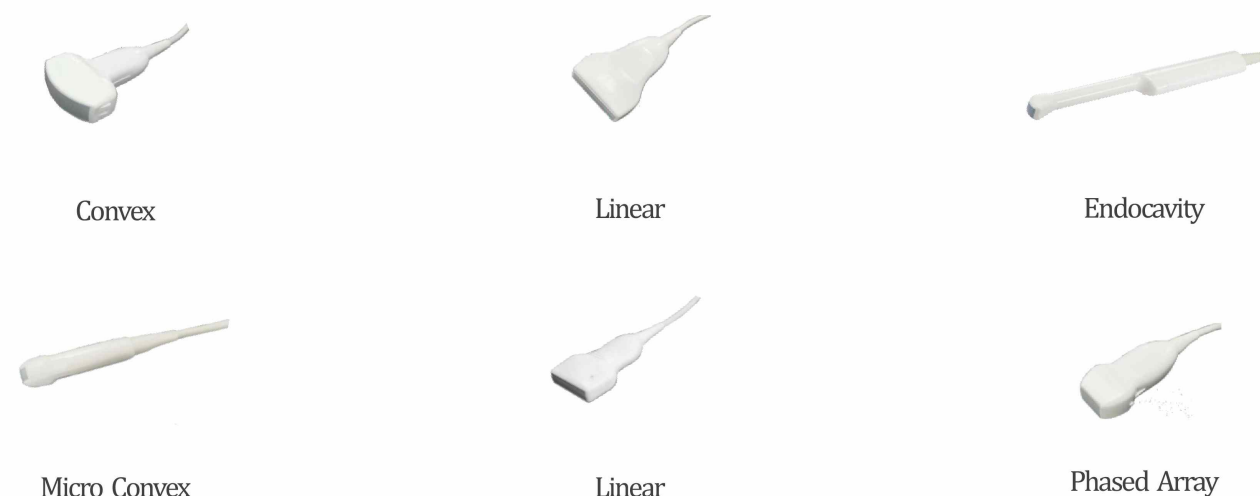

Emerging Fields Of Musculoskeletal and Intelligent Puncture Enhancement

Specialist application software package, multi-beam technology significantly improves image real-time performance, high-density probes, and broadband technology improve diagnostic accuracy. Guide the position of the puncture point and the path of the needle.

TRANSDUCERS

Abdomen, Obstetrics and Gynecology

Obstetrics, gynecology, fetal heart, abdominal measurement calculation software package; tissue contrast-enhanced imaging, supporting composite imaging of obstetric convex array probes.
